**The Company**

Founded in 1978 Altec have evolved into a company who supply a diverse range of engineering solutions to a wide range of customers, covering many different industries.

Through continual improvement Altec have developed an experienced and skilled team who can supply a single source service to our customers.

We are approved to ISO9001-200, which provides our customers with an assurance of our commitment to the highest levels of quality, inspection and procedures.

Through continual employee development and training Altec have been recognised as an Investor in People.

**Mission Statement.**

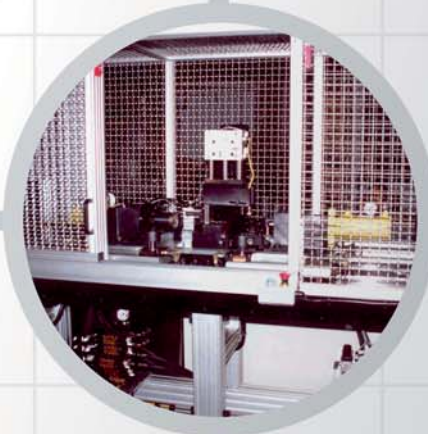

Through progressive planned investment in people and technology Altec Engineering are committed to meeting the needs of customers by supplying products which are manufactured to the highest possible standard, efficiently produced and competitively priced.

Lindsey park, Bowburn North Industrial  
Estate Bowburn, Durham, DH6 5PF  
Tel 0191 3770555 - Fax 1019 3773013

**Special Purpose Machines**

Altec supply a full turnkey solution to our customers needs from design to installation, including Software

**Assembly & Test Stations**

Altec supply a full turnkey solution to our customers needs from design to installation, including Software

**Press Tools**

Altec design and manufacture single and multi stage progression tools

**Jigs, Fixtures & Gauges**

Altec design and manufacture a wide range of Jigs and Fixtures for all types of industries

**Precision Components**

Altec manufacture precision components to high tolerance customer drawings
